Appl No. 09/446,323 Amendment dated September 6, 2005 Reply to Office Action dated June 13, 2005 Page 2

Amendments to the Claims:

1-12. (Canceled)

- 13. (Previously presented) A device for taking and examining samples, comprising a housing having positioned therein a cartridge, a testing means, and a sample-taking means, the sample-taking means comprising two half-tubes connected to each other, wherein the cartridge is displaceable within the housing such that a sample introduced by the sample-taking means is operable to form a sample mixture with a content of the cartridge, and wherein the testing means is displaceable within the housing.
- 14. (Previously presented) The device according to claim 13, wherein at least one of the two half-tubes comprises a first disk and a second disk defining a sample chamber.
- 15. (Previously presented) The device according to claim 14, wherein the first disk comprises a sieve and an indentation, and further wherein an edge of the first disk comprises a cone-shaped ring.
- 16. (Previously presented) The device according to claim 15, wherein the cartridge is cylindrically shaped and comprises, on one end, a truncated cone engageable with the coneshaped ring.
- 17. (Previously presented) The device of claim 13, wherein the two half-tubes are connected by a joint, and wherein the joint is selected from the group consisting of a film hinge and an elastic web.
- 18. (Previously presented) The device of claim 14, wherein the first disk is coupled to the sample-taking means with predetermined breaking points.

19-22. (Canceled)

23 (Previously presented) The device according to claim 13, wherein the testing means is displaceable within the housing between a first position, in which the testing means does
